

Grading Checklist - PSP 2

Student Karla Sofía Castro Pérez

Program Numerical
Integration

Instructor Adolfo Centeno Tellez

Legend
Ö - O.K.
X - resubmit

	Grading	Data Entry
Date	10/12/2025	
Start	17:35	
End		
Interrupt		
Total		

Assignment Package	Comments
✓ PSP2 Project Planning Summary	
✓ Test Report	
PSP2 Design Review Checklist	
Code Review Checklist	
✓ PIP Form	
✓ Size Estimating Template	
✓ PROBE Worksheet	
✓ Time Recording Log	
✓ Defect Recording Log	
✓ Source Program Listing	
✓ Test Results	

Program and Test Results	Comments
✓ The program appears to be workable.	
✓ All required tests have been run.	
✓ The actual output is correct for each test.	
✓ Source is compatible with coding standard.	

Test Report Template	Comments
✓ Planned and actual results are included for all tests.	
✓ All information to repeat the tests is provided.	

Time Log	Comments
✓ Time data are entered for all process steps.	
✓ Process steps are sequenced appropriately.	
✓ Time data are entered against the appropriate process step.	
✓ Interrupt time is tracked appropriately.	
✓ Time data are complete and reasonable.	
✓ Times were recorded as the work was done.	

Grading Checklist - PSP 2

Defect Log	Comments
☐ Every defect has all required data.	
☐ Defects were injected before removed.	
☒ Every defect has a fix time.	
☐ Defects injected in compile and test have fix numbers.	
☒ Defects are adequately described.	
☒ Defect types are consistent with description.	
☐ Defect types are consistent with phase injected.	
☒ Defect types are assigned consistently.	

Size Estimating Template & PROBE Worksheet	Comments
☒ Plan and actual size data are complete and reasonable.	
☒ The reuse and base measures are used correctly.	
☒ A suitable number of new parts are identified.	
☒ The item sizes are balanced around medium.	
☒ The relative size data values are correct and based on historical data.	
☒ The appropriate PROBE method has been selected.	

PIP Form	Comments
☒ The PIP form is completed.	
☒ The entries show insight and thought.	
☒ <i>If yield was low, improvement actions are listed.</i>	

Design Review Checklist	Comments
☐ <i>The checklist is used correctly</i>	
☐ <i>The checklist is marked for each item.</i>	

Code Review Checklist	Comments
☐ <i>The checklist is used correctly</i>	
☐ <i>The checklist is marked for each item.</i>	

Planning Summary	Comments
☒ Planned total time has been entered correctly.	
☒ Planned and actual size data are entered correctly.	
☒ Planned and actual size/hour data are reasonable.	
☒ CPI value indicates reasonable estimation.	
☒ % Reused and %New Reused indicate effective reuse.	
☒ <i>Total and test defect densities reasonable.</i>	
☒ <i>Planned times are distributed like the To Date %.</i>	
☒ <i>The defect estimates are based on historical data.</i>	
☒ <i>The planned review times and rates are reasonable.</i>	
☒ <i>The actual review rates are reasonable.</i>	
☒ <i>The To Date calculations are restarted with PSP2.</i>	
☒ <i>Between 2 and 5 defects/hour were found in DLDR.</i>	
☒ <i>Between 5 and 10 defects/hour were found in CR.</i>	
☒ <i>DRLs are reasonable.</i>	

Grading Checklist - PSP 2

Consistency Checks		Comments
✓	Defects removed are consistent with compile and test phase time and program size.	
✓	Total compile defect fix times are less than compile time.	
✓	Total test defect fix times are less than test time.	
✓	Defect dates & phases are consistent with the time log.	
✓	Planning summary is consistent with the time log.	
✓	Planning summary is consistent with the defect log.	
✓	Planning Summary values are consistent with the size estimating template values.	
✓	Actual Added on planning summary close to and no less than actual BA+PA on size estimating template.	
General		Comments
✓	Followed the defined process.	
✓	Complete, consistent and accurate process data collected.	
✓	The student did his or her own work.	
✓	Historical data are used in planning the work.	
✓	<i>Historical data are consistently used to improve the quality of the product.</i>
